GREENWAY MEDICAL TECHNOLOGIES' ANNUAL PRIMELEADER CONFERENCE SETS STAGE FOR EHR AND HEALTH IT ADVANCEMENT

Conference Promotes Advancements in Healthcare Information Technology to More Than 700 Attendees

September 15, 2008, Carrollton, Ga. – Greenway Medical Technologies Inc. recently concluded its annual *PrimeLeader* Conference in Atlanta, GA. More than 700 key Greenway® customers and representatives attended the conference, which provided educational and networking opportunities for physicians, practice administrators and other healthcare professionals during the four-day event.

The conference also provided opportunities for Greenway customers to receive advanced training to better maximize their experience with *PrimeSuite* 2007 R2, Greenway's 2007 CCHIT Certified® electronic health record (EHR), which streamlines the clinical, financial and administrative workflows of a medical practice.

“This was our most successful conference yet,” said Tee Green, president of Greenway. “Our company continues to grow at record-setting levels, which enables us to invest in healthcare information technology (HIT) and initiatives that advance point-of-care EHR adoption. This conference is an excellent way to stay connected with our most important asset, our customers.”

“The Greenway *PrimeLeader* conference was of great benefit to me and my staff,” said Dr. Samuel Lederman, a physician at Palm Beach OB-GYN in Lake Worth, Fla. “The opportunity to receive advanced training on items relevant to EHR and healthcare information technology will help our practice remain on the cutting edge of healthcare, which will ultimately result in higher levels of patient care and increased return on investment.”

Palm Beach OB-GYN, a Greenway customer since 2005, experienced significant ROI and increased care quality outcomes through its EHR deployment of *PrimeSuite*. With this success, Palm Beach OB-GYN recently applied for the HIMSS' Nicholas Davies

(more)

Ambulatory Award of Excellence, which recognizes excellence in the ambulatory implementation and use of health information technology. The Davies Award is healthcare's most prestigious HIT award with a very select group of recipients, as applicants must demonstrate a high degree of success across all levels of their practice resulting from the deployment of HIT technology.

About Greenway Medical Technologies Inc.

Greenway Medical Technologies provides the latest in ambulatory healthcare business solutions and services to more than 20,000 healthcare providers and professionals nationwide, in 30 specialties and subspecialties, by enhancing the delivery of patient care through innovative HIT software and on-demand services that allow physician practices to function at their highest level of efficiency. Greenway's PrimeSuite is a comprehensive, interoperable component of the integrated physician's infrastructure solution, which serves as the starting point of a long-term business plan for physician practices. PrimeSuite 2007 R2, the first EHR to be certified by CCHIT[®] based on 2007 Ambulatory EHR Certification requirements, integrates a practice's clinical, financial and administrative processes, and allows practices to increase profitability, enhance patient satisfaction and facilitate adherence to compliance guidelines. Established in 1998, Carrollton, Ga.-based Greenway Medical Technologies is a privately held company with 270 employees. For more information about Greenway, visit www.greenwaymedical.com.
