GREENWAY MEDICAL TECHNOLOGIES PARTNERS WITH PEDIATRIC ASSOCIATES, THE NATION'S LARGEST AMBULATORY PROVIDER OF GENERAL PEDIATRIC CARE

Western Washington-Based Healthcare Provider, Seeing More Than 250,000 Patients Per Year, to Utilize Greenway's Flagship EHR Solution, PrimeSuite

March 4, 2009, Carrollton, Ga. – Greenway Medical Technologies, a leading provider of integrated electronic health records (EHR), practice management and interoperability functionality, today announced that it will be deploying its industry leading EHR solution, PrimeSuite[®], into the nation's largest general pediatric practice, the 70-physician Pediatric Associates of Washington State.

With this implementation, Pediatric Associates' eight facilities (Bellevue, Factoria, Pine Lake, Redmond, Sammamish, Totem Lake, Redmond Ridge and an administrative office located in the greater Puget Sound region of Washington) will utilize PrimeSuite 2008, a fully CCHIT Certified[®] 08 ambulatory EHR that includes certification in child health, to streamline its clinical, financial and administrative workflows while creating an interoperable system where patient information can be shared seamlessly within the organization.

Pediatric Associates began treating patients in 1967 and offers a variety of general pediatric services to some 250,000 infants, children and adolescents, including children of the more than 40,000 Microsoft[®] Corp. employees who reside in the region.

Along with using PrimeSuite, Pediatric Associates will utilize other components of Greenway's complete physician's infrastructure to streamline its workflows. Pediatric Associates will be utilizing PrimeExchange to create interoperability between its eight facilities and the diagnostic centers with which these facilities send and share test results. To enhance the process even further, Pediatric Associates will also utilize Greenway's PrimePatient[®], which will enable patients or their parents and guardians to pay bills, schedule appointments, interact with Pediatric Associates staff members, view lab results and request prescriptions – all online via a secure Web portal.

(more)

“We are excited to begin working with Pediatric Associates and to provide the nation’s largest general pediatric practice with one of the nation’s leading fully-integrated and interoperable EHR solutions,” said Justin Barnes, vice president of marketing and government affairs at Greenway Medical Technologies. “Every time a large practice such as Pediatric Associates begins utilizing health information technology, we make a giant leap closer to achieving a nationwide interoperable healthcare system that enhances the quality of care that physicians can provide their patients, as well as provide a better quality of life for physicians that use leading integrated solutions such as Greenway’s *PrimeSuite*.”

“Our experience with Greenway has proven very rewarding,” said Brett Vandenberg, CIO of Pediatric Associates. “They are on the cutting edge of healthcare technology, and we are pleased to have a solution that will increase the quality of care our physicians can provide to our patients while maximizing the organizational workflow and processes throughout our facilities.”

About Greenway Medical Technologies Inc.

Greenway Medical Technologies provides the latest in ambulatory healthcare business solutions and services to more than 23,500 healthcare providers and professionals nationwide, in 30 specialties and subspecialties, by enhancing the delivery of patient care through innovative HIT software and on-demand services that allow physician practices to function at their highest level of efficiency. Greenway’s *PrimeSuite* is a comprehensive, interoperable component of the integrated physician’s infrastructure solution, which serves as the starting point of a long-term business plan for physician practices. *PrimeSuite* 2008 is certified by CCHIT[®] based on 08 Ambulatory EHR certification requirements. *PrimeSuite* integrates a practice’s clinical, financial and administrative processes, and allows practices to increase profitability, enhance patient satisfaction and facilitate adherence to compliance guidelines. Established in 1998, Carrollton, Ga.-based Greenway Medical Technologies is a privately held company with approximately 300 employees.
