GREENWAY MEDICAL TECHNOLOGIES' PRIMEENTERPRISE CREATES AN INTERCONNECTED AND INTEROPERABLE SYSTEM OF COMMUNITY HEALTH INFORMATION FOR ITS CUSTOMERS

PrimeEnterprise Provides the Tools for Effective Management and Connectivity of Large Healthcare Enterprises

- PrimeEnterprise™ benefits Health Systems, Independent Physician Associations (IPAs), Management Service Organizations (MSOs), Billing Services, Ambulatory Surgery Centers (ASCs) and other organizations seeking centralized management of practice, revenue cycle, and patient information
- User rights management enables enterprise users to set security and permission rights to control what information can be shared between practices and the enterprise users
- Organizations can create a centralized claims process for all practices in the enterprise group, which can save time and money through a streamlined process
- PrimeEnterprise is a flexible solution that caters to a variety of an organization's enterprise needs

August 25, 2009, Carrollton, Ga. – Greenway Medical Technologies Inc. recently announced the launch of its community healthcare IT solution, PrimeEnterprise, which enables a community of Greenway® customers to securely and seamlessly share select clinical, financial and administrative data.

PrimeEnterprise, part of Greenway's integrated physician's infrastructure that includes the single-database electronic health record (EHR), practice management and interoperability solution, PrimeSuite®, also offers "Enterprise search" and "quick connect" features that enable enterprise users to search for a specific patient within the healthcare community and electronically access critical patient information regardless of the information's location.

With PrimeEnterprise, all patient information within the enterprise system can be managed securely and actual patient chart access can be granted based on user-rights. The establishment of an enterprise master patient index (EMPI) and the associated sharing of clinical information amongst participating physicians can also be facilitated through PrimeEnterprise.

The Women's Health Care Group of PA is a 60-physician group with more than 300 care providers and administrators utilizing PrimeSuite at 27 locations throughout eastern Pennsylvania. The group utilizes

Prime*Enterprise* to instantly access and manage data from any of its 27 locations resulting in a streamlined process by which to manage multi-practice workflow.

“We are very pleased to have a central access point from which to obtain data from any of our ancillary practices,” said Dr. Stephen Krell, President of Women’s Health Care Group of PA. “The time and energy we save through Prime*Enterprise* enables us to invest our efforts into other areas of our practice.”

“With the influx of practices that are beginning to adopt EHRs, Prime*Enterprise* can help facilitate the controlled sharing of data and patient information between Greenway customers,” said Greg Shilling, vice president of business development at Greenway. “This interoperable solution can play a crucial role in helping medical practices securely and efficiently exchange patient information, from small billing issues to critical patient data, all of which can be done in a safe, secure and timely manner.”

About Greenway Medical Technologies Inc.

Greenway Medical Technologies provides the latest in ambulatory healthcare business solutions and services to more than 27,000 healthcare providers and professionals nationwide, in 30 specialties and subspecialties, by enhancing the delivery of patient care through innovative HIT software and on-demand services that allow physician practices to function at their highest level of efficiency. Greenway’s Prime*Suite* is a comprehensive, interoperable component of the integrated physician’s infrastructure solution, which serves as the starting point of a long-term business plan for physician practices. Prime*Suite* 2008 is certified by CCHIT[®] based on 08 Ambulatory EHR certification requirements. Prime*Suite* integrates a practice’s clinical, financial and administrative processes, and allows practices to increase profitability, enhance patient satisfaction and facilitate adherence to compliance guidelines. Established in 1998, Carrollton, Ga.-based Greenway Medical Technologies is a privately held company with more than 300 employees. For more information about Greenway, visit www.greenwaymedical.com.
