USING PRIMESUITE SINCE 2004

PrimeSUITE® connects all the parts of your practice, from a person's first point-of-contact through physician/patient interaction and payment received. Our organically integrated product is designed to be clean, clear, easy to learn and easy to use at the point of care, so you can focus on your patients.

And it's not like buying a car, when you have to decide among options on the spot. As a PrimeSUITE user, you have the flexibility to customize templates, create personalized reports and add features as you go to fit your care coordination needs, all with industry-leading Greenway support to see you through — every step of the way.

GREENWAY®

PrimeSUITE: The Core of Your Practice

- Greenway's core innovative platform, PrimeSUITE is designed to facilitate data sharing and clinical best practices throughout your community of health, be it accountable care, quality reporting or a host of interoperability needs keeping pace with advanced healthcare delivery standards.
- PrimeSUITE's fully integrated, fully certified solution means that everyone who has a hand in the success of your practice — physicians, administrators and billing managers — has a handle on the big picture. Integrating your clinical, financial and administrative functions reduces errors, simplifies business processes, and helps you achieve meaningful use to ultimately improve care delivery.
- PrimeSUITE provides an average increase to practice revenues of \$21,600 to \$81,500 per physician per year.

- PrimeSUITE can be delivered as a hosted or on-premise solution to best meet the demands of your practice.

The Highest Platform for Your Practice

PrimeSUITE is the highest-ranked EHR solution in the industry, backed by the industry's best customer support.

- PrimeSUITE is unmatched in annual "Best in KLAS" customer satisfaction awards. Overall, PrimeSUITE and Greenway have earned 13 Best in KLAS awards since 2004.
- PrimeSUITE 2011 is fully certified for ONC-ATCB Stage 1 2011/2012 Meaningful Use criteria, enhanced by our unique Meaningful Use Dashboard providing practices with a single, intuitive view of meaningful use progress in real time to become a practice-wide analytics solution.

Comprehensive, Customizable Functionality

FACESHEETS

EHR: Point of Care Simplicity

PrimeSUITE clinical features are designed for simplicity, so you can focus on diagnosis instead of data entry.

Clinical Template Library provides access to more than 3,200 templates that can be customized by workflow or specialty.

E-Prescribe launches and operates with one click, enabling you to submit a prescription electronically to a patient's preferred pharmacy.

Clinician Desktop has key features conveniently located on the main login page, reducing clicks and delivering quick provider access.

Clinical Alerts allows you to create and modify guidelines that trigger reminders.

Patient Lists generates workflow -centered lists of patients to be seen, with role-specific user filtering.

User Settings enables you to set numerous chart preferences according to your specific needs.

Orders Tracking occurs straight from the desktop, instantly processing orders.

Clinical Vocabulary automatically maps standard, familiar clinical vocabulary to a wide array of reimbursement codes, including ICD-9, ICD-10, CPT and SNOMED.

"I've been very pleased with PrimeSUITE. Ease of use is very important and the support has been great."

PrimeSUITE: Tailored to You

Greenway listens. Beyond our core features designed for customization and flexibility, we have a dedicated user experience team that focuses solely on customer-generated requests for PrimeSUITE enhancements.

USER EXPERIENCE TEAM

In addition, we have established a clear process for customers to make universal enhancement requests, review the status of their requests, and provide feedback on those enhancements.

"You can utilize PrimeSUITE to make sure you're billing correctly. That comes back to a clean claim and increased revenue, which makes everybody happy."
