

Intergy v11.0

Phil Dodds, Shanny Feighny, Chris Swartz, Zach Blunt, George Renzi, Erin Ward

Intergy v11.0- Key Concepts Covered

- Clinical
 - MIPS/MU/ONCCEHRT features
 - New Care Plan
 - Immunization Forecasting
 - Auditing
 - More

- PracticeManagement
- Patient Portal
- Population Health
- FQHC
- Ideas Page
- Intergy v11.10

The journey to 2015 certification

Finalization of reporting file

Before Engage, we will finalize the format of our quality reporting documents that CMS receives, and announce full certification.

Intergy v11.0

Intergy v11.0 will become Intergy's 2015 ONC CEHRT. In this release, we've tested and finalized all customer functionality, and added even more based on our clients' input.

Intergy v10.10

We started work on 2015 ONC CEHRT with Intergy v10.10. We focused on certified functionality our clients wanted the most, like electronic prescribing. Also, we added new fields, search options, etc.

Topics: Intergy Building to Certification

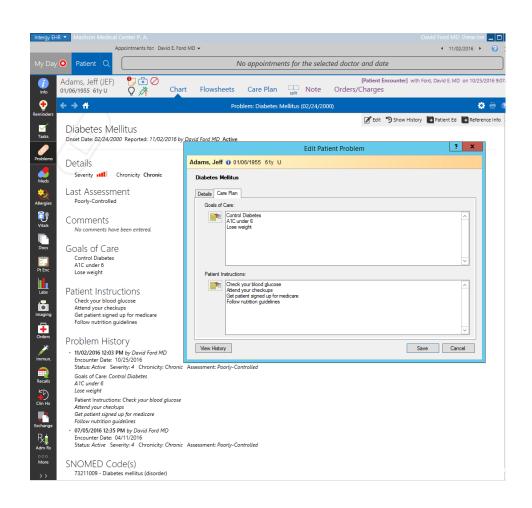

- New Care Plan
- Immunization forecasting
- Exchange Document Confidentiality Levels
- Auditing

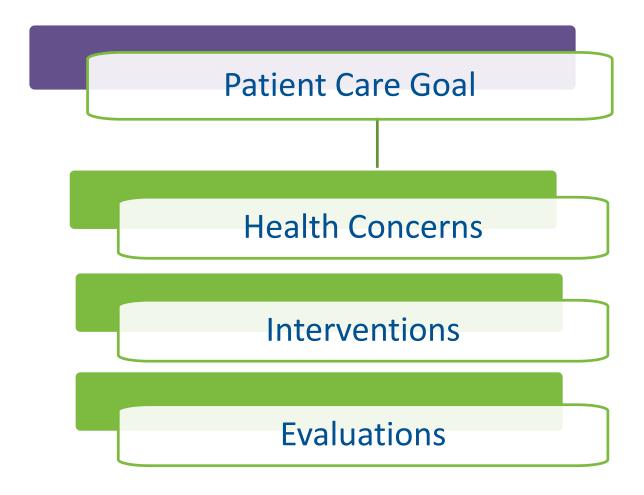

Legacy Intergy Care Plan

- Problem centered
- Quick Text
- Can be cited into the note

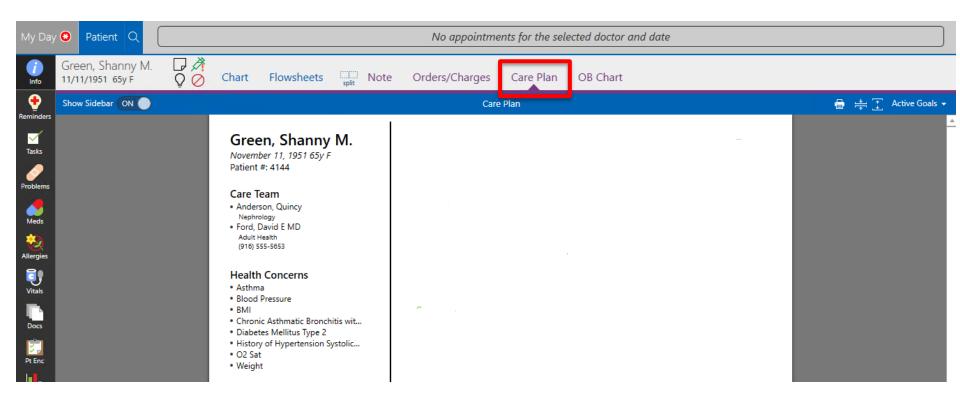

New Care Plan Structure

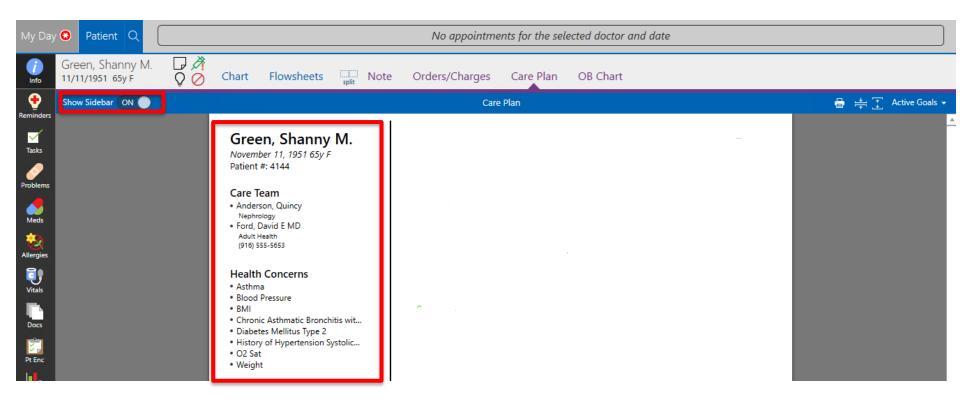

New Care Plan Tab

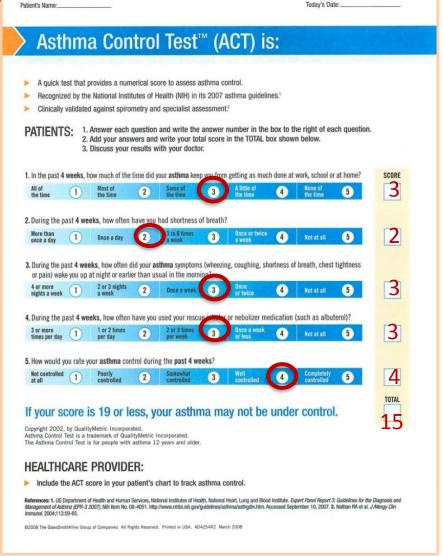

New Care Plan Sidebar

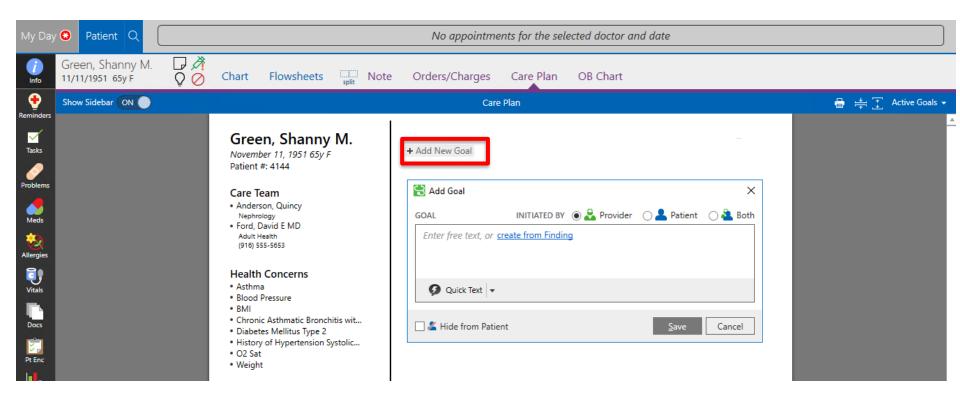

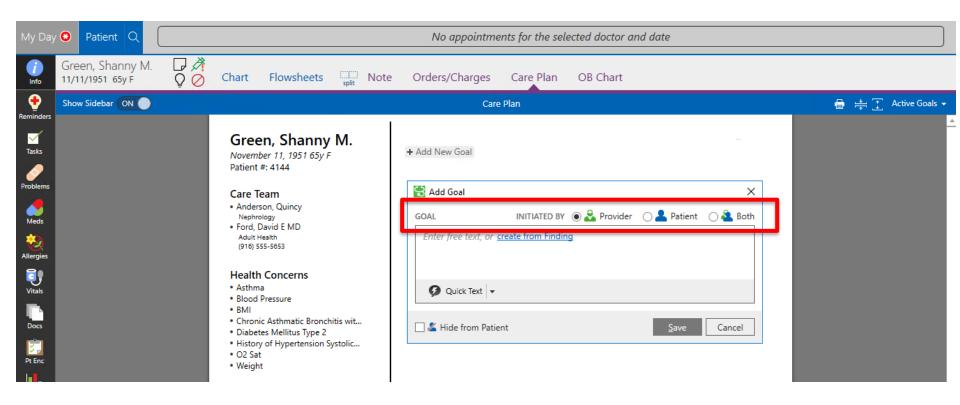

New Care Plan Example

- Asthmatic
- Poor ACT Score
- GOAL is to improve the ACT score

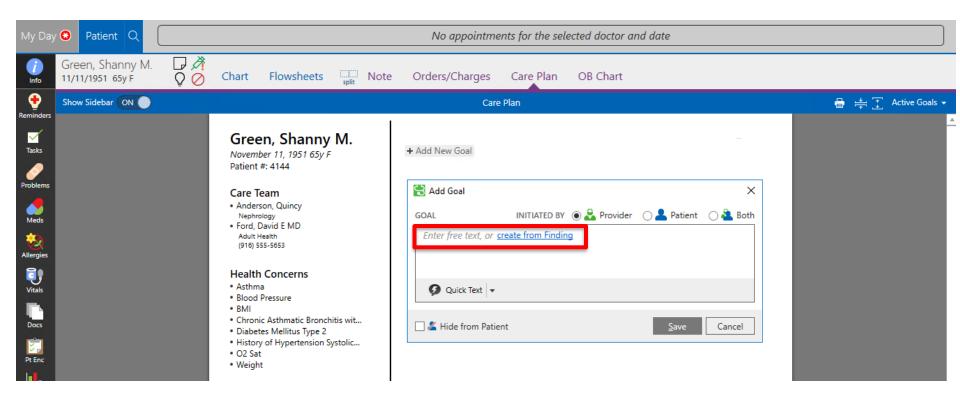

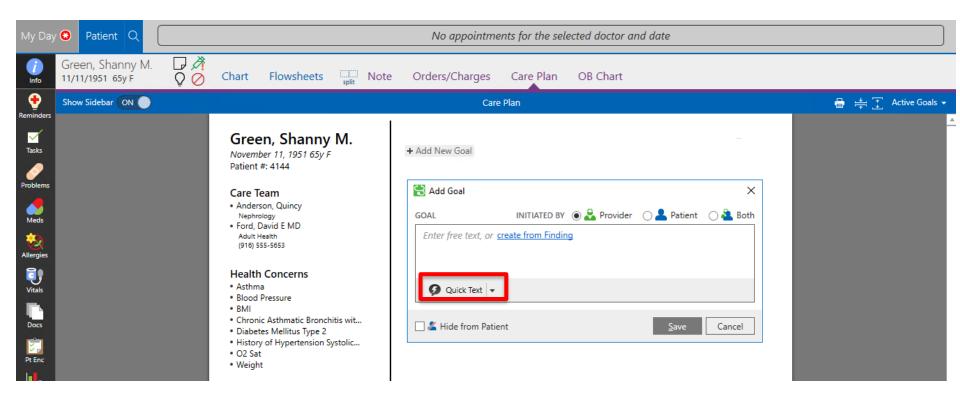

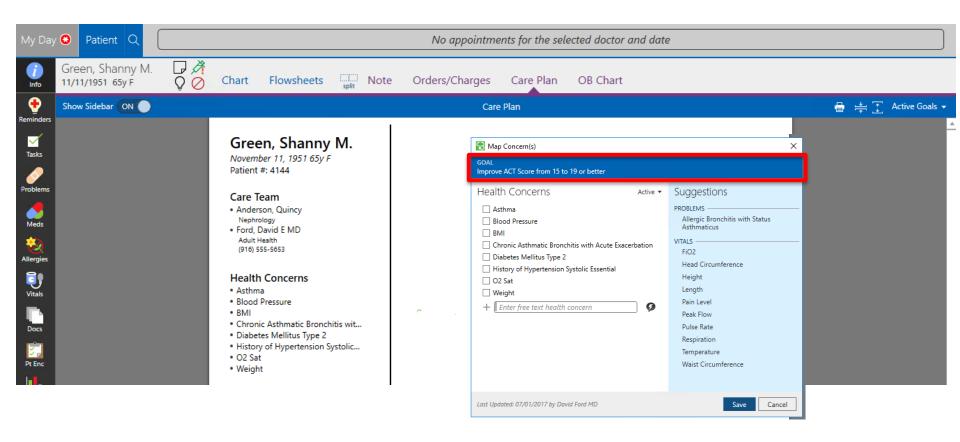

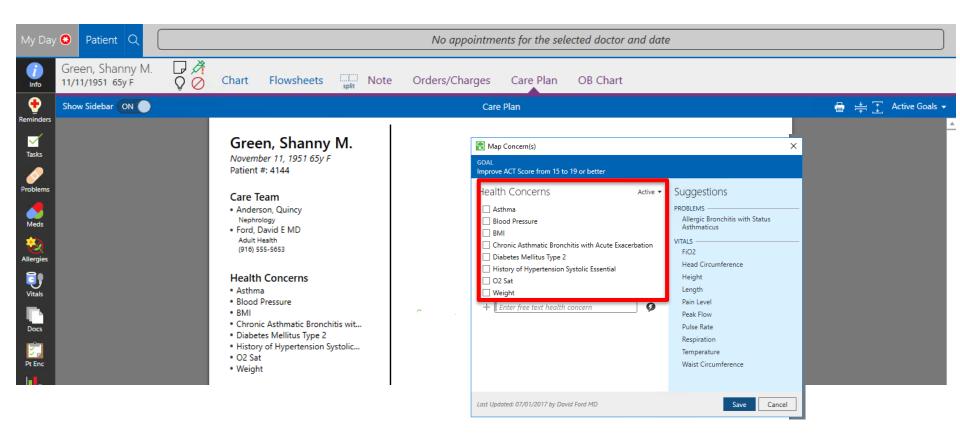

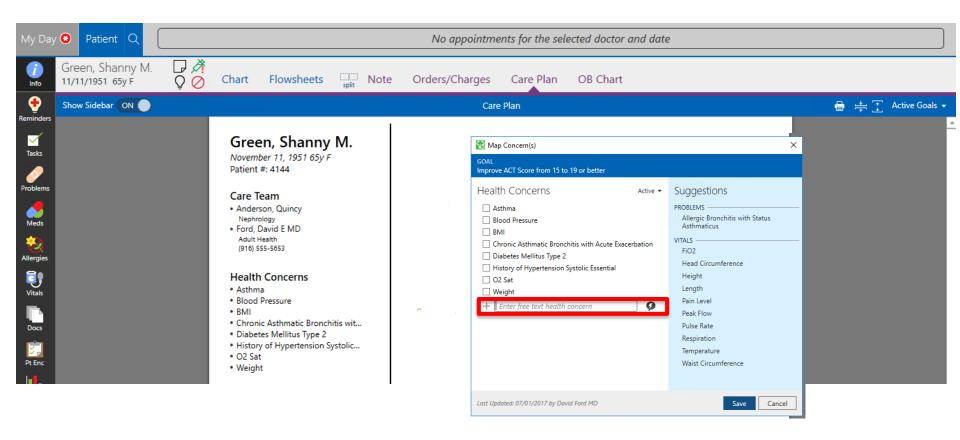

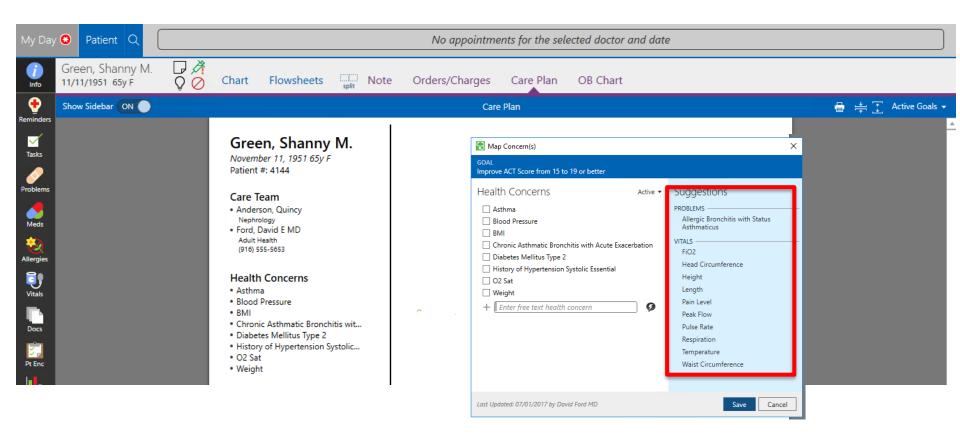

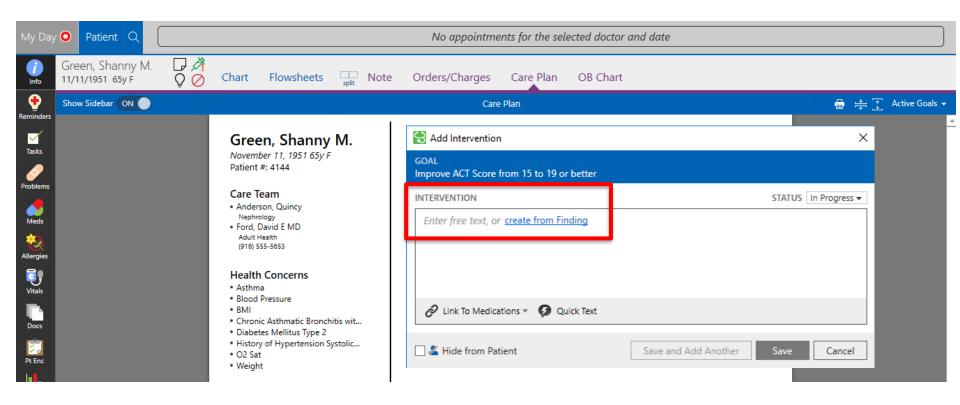

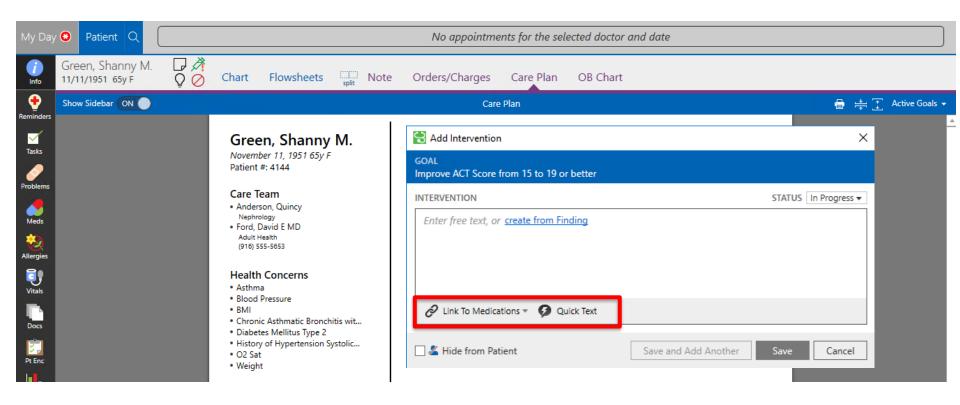

New Care Plan Interventions

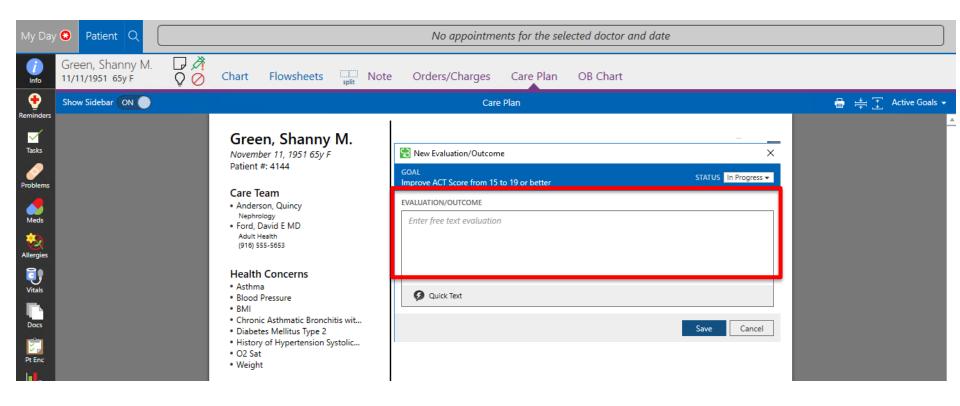

New Care Plan Interventions

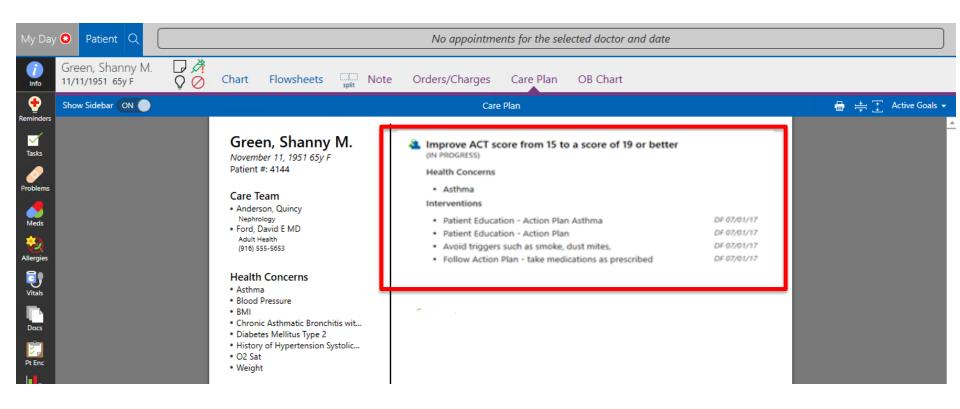

New Care Plan Evaluations

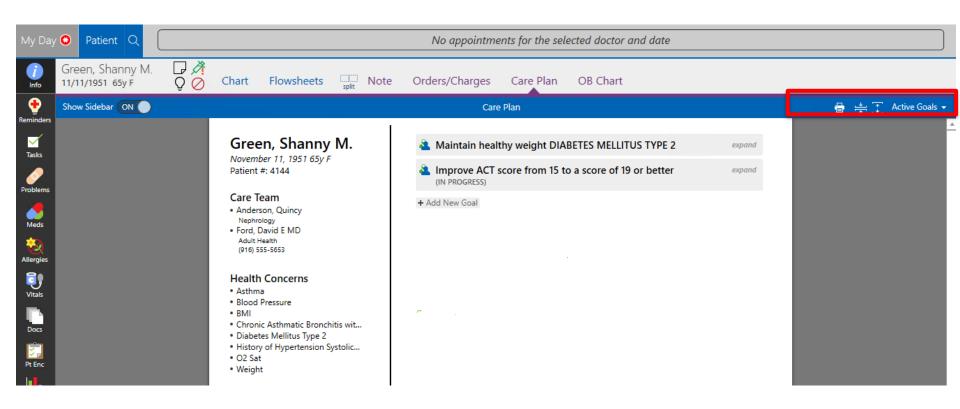

New Care Plan Expand Goals

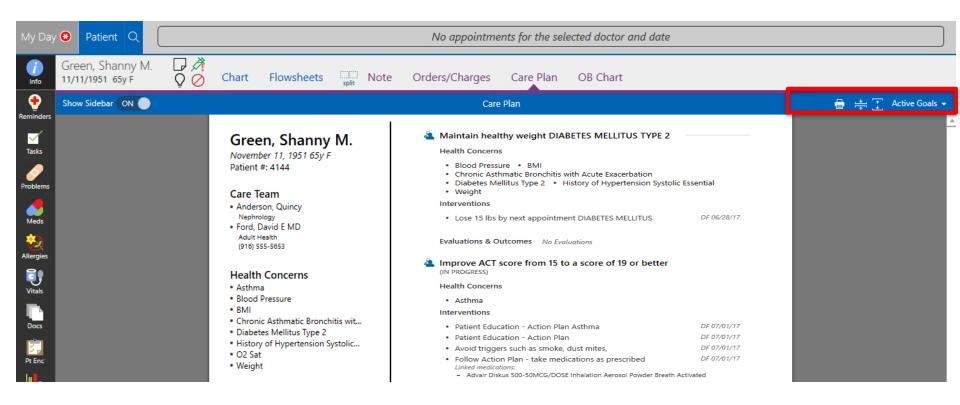

New Care Plan Collapse Goals

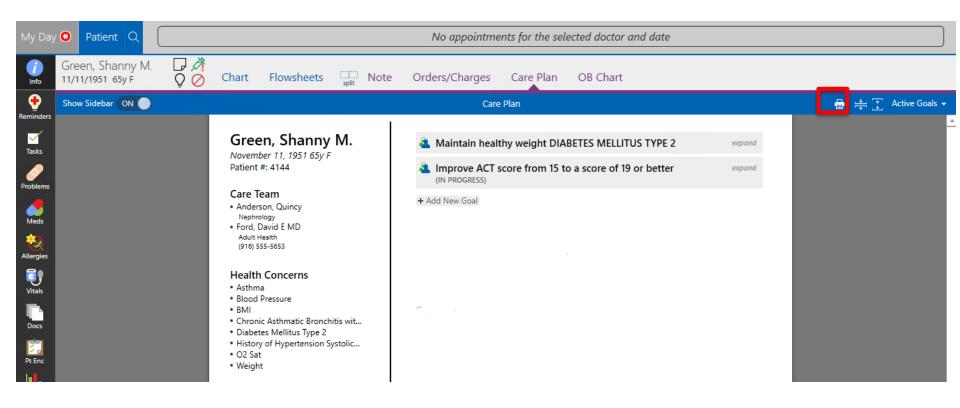

New Care Plan Expand Goals

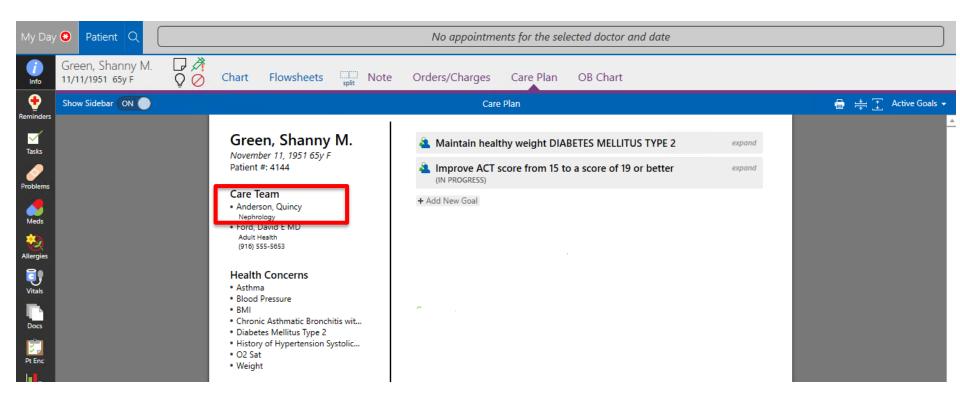

New Care Plan Print

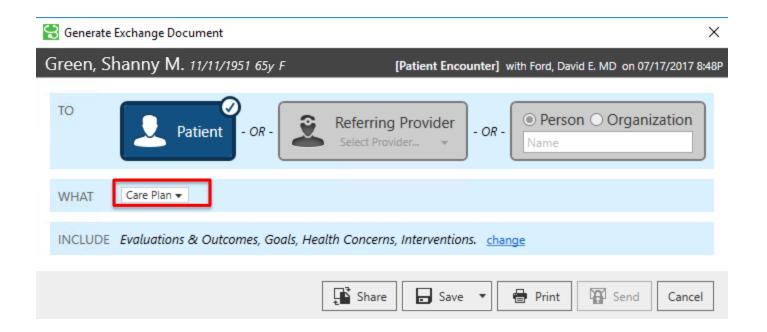

New Care Plan Send Direct Message

Care Plan CCDA

- New exchange documents has been added Care Plan
 - Contains the Goal, Health Concerns, Interventions, and Evaluations and Outcomes sections

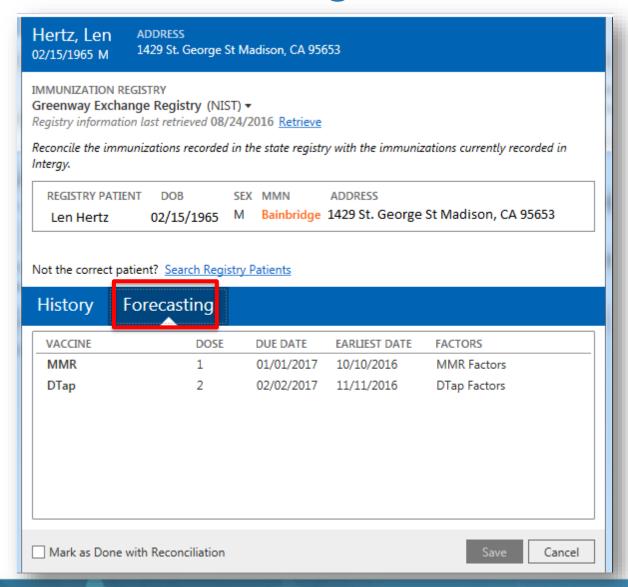

Care Plan Metamorphosis

- Existing care plan data will be converted
 - A problem that has data in the goals and/or instruction fields will become a health concern
 - A new goal will be created with the text from the previous goal text
 - The instructions for that goal will become an intervention for that new goal

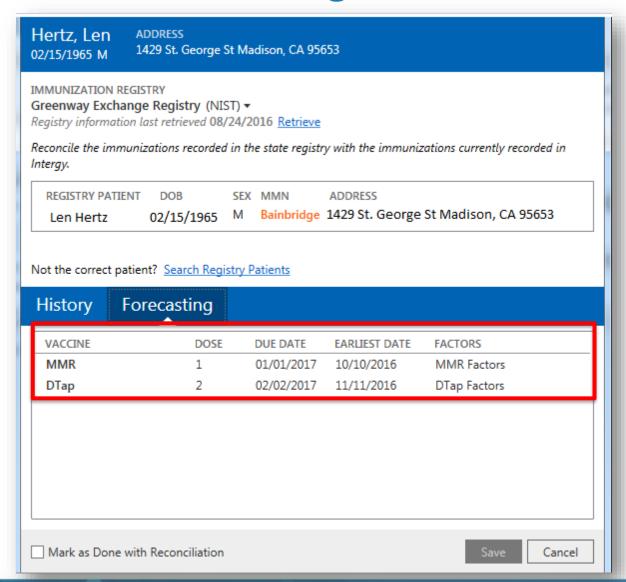

Immunization Forecasting

Immunization Forecasting

Exchange Document Confidentiality Levels

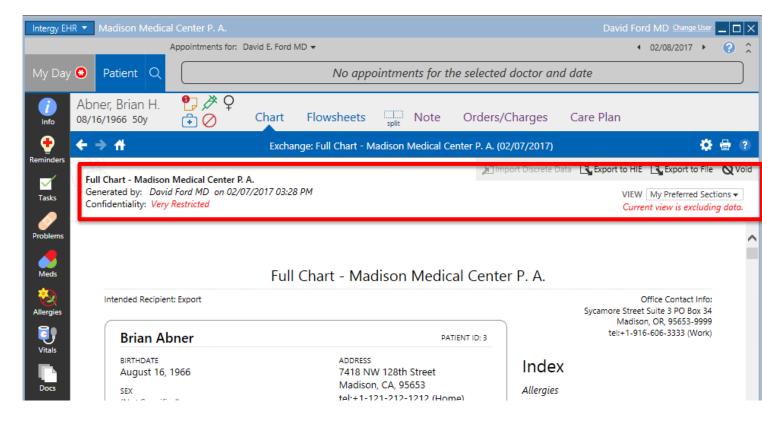

New Document Confidentiality Levels

- These are the values found in a CCDA
 - Normal (N)
 - Restricted (R)
 - Very Restricted (V)

Exchange Document Restriction Level

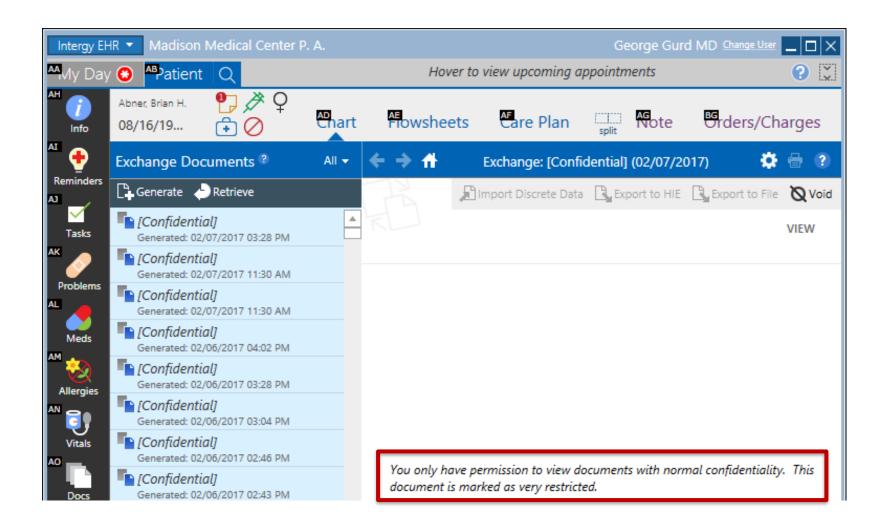

In the patient Chart Exchange Documents window,
 the restriction level will be displayed at the top of the

screen

Exchange Document User- No Confidential Access

Auditing

- Hugely improved Intergy's clinical auditing capabilities
- New auditing preferences
 - "Yes" will now log all actions and all changes
 - "Partial" will only log actions.
 - "No" will not perform any audit logging.
- On update to v11 all actions and all changes will be audited if practice preferences are set to yes. If desired, the practice can change the settings to partial.

Audit Log

- Intergy can now track changes in the audit log for the following data:
 - Allergies
 - Clinical History
 - Care Team
 - Demographics (some)
 - Immunizations
 - Implantable Devices
 - Lab Results
 - Problems

- Medications
- All OB pages
- Orders
- Tasks
- Encounters
- Transcriptions
- Vitals
- E&M

HELP / TROUBLESHOOTING GUIDES / WHAT TO DO WHEN PATIENTS SAY THEY CAN'T GET INTO THE PORTAL

Are They Trying to Register?

When the patient says they can't get into the portal, you need to determine whether they are trying to register, or trying to log in.

Questions to Ask

• Have you already registered? This can be a simple yes or no answer. If they're not sure, or if they are trying to register, continue with the guestions below. If they have already registered, skip to the next section.

About the Registration Email

 In the registration email, which link did you click? Patients trying to register would have gotten an email like the one below.

Subject: Register with Health Clinics of Tampa Bay

Visit Note Provider Task Workflow

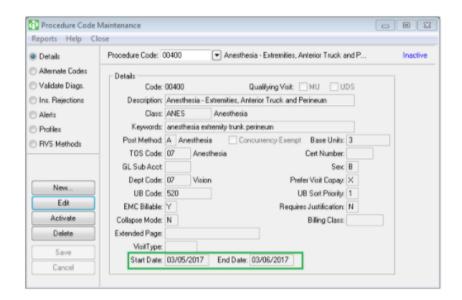

Greenway Patient Portal Appointment Routing

 When a provider works in multiple services locations Intergy can now route the appointment request tasks from Greenway Patient to specific users based on service center and provider.

Diagnosis & Procedure Effective Dates

- Enhanced Intergy to help practices manage procedure and diagnosis effective dates to improve clean claims processing
- Ability enter start and end dates and respect these during typical workflows
- Business rules, alerts, and permissions to assist providers and charge posters

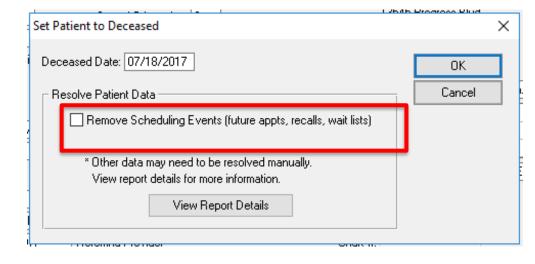

Your Ideas at Work! Automatically Remove Appointments for Deceased Patients

 When a patient is marked as deceased the user can now cancel all future appointments for the patient.

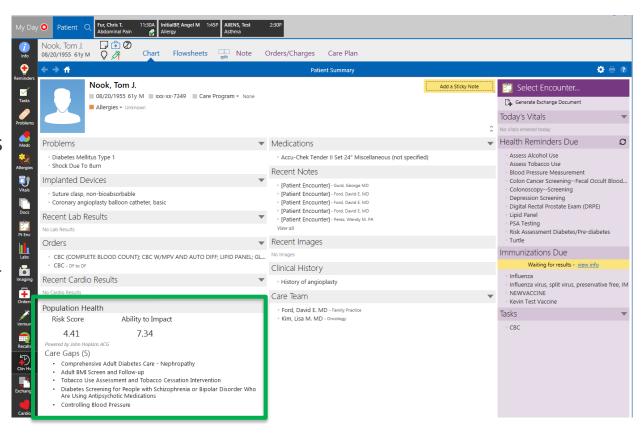

Zach Blunt, Manager Product Management Population Health

POPULATION HEALTH AND CARE COORDINATION SERVICES

Population Health Widget

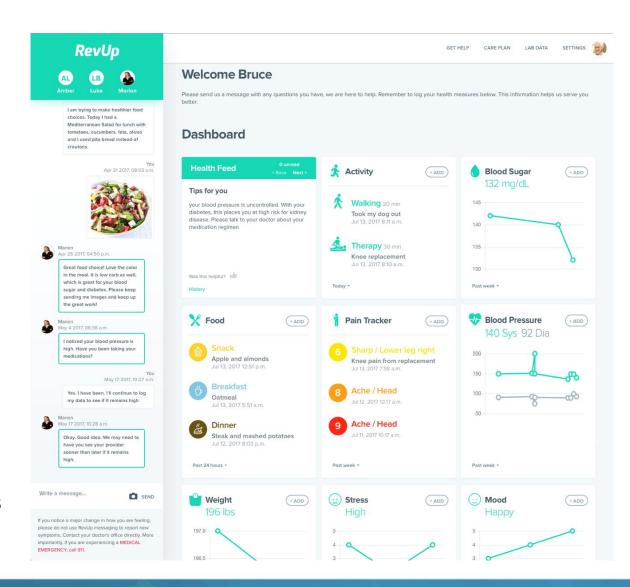

- New widget added to patient's facesheet provides additional visibility at point of care
- Care gaps list and Ability-to-Impact score added in v11

Greenway Care Coordination Services

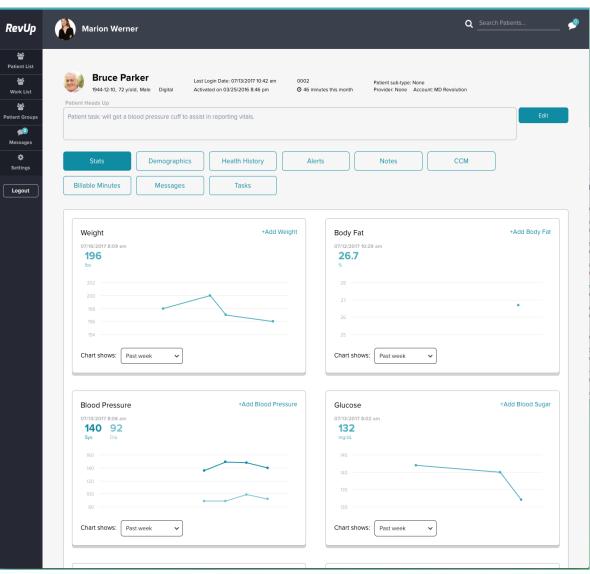

- Targets eligible patients for chronic care management services
- Increased interaction between office visits increases patient compliance
- Higher compliance results in better patient health
- Additional revenue stream for practices
- Interactive platform for care plan compliance and questions

Intergy v11: What's New for GCCS?

- Automated charge posting
- Updates to clinical data now leverage C-CDA 2.1
- Automated billing will result in:
 - Less tasks coming in at the end of the month
 - Less time billing spends on CCM

George Renzi, Technical Business Analyst

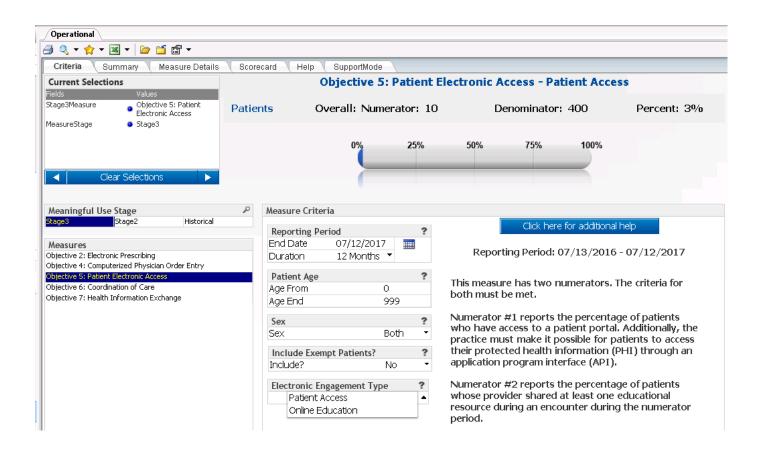

INTERGY PRACTICE ANALYTICS V11.0 & MAKING REPORTING EASIER

MACRA/MIPS & MU

- Medicaid Stage 3/MIPS ACI
 - New addition to the Operational Dashboard

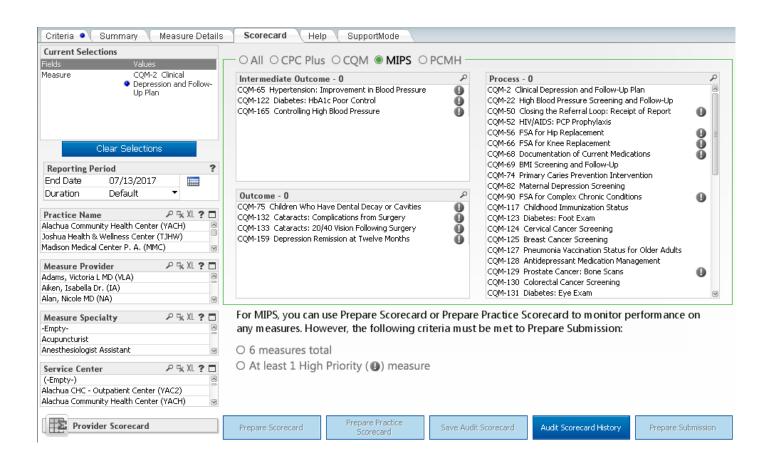

- Quality Measures & aligned UDS measures complete
 - 64 CQMS and 11 UDS measures updated for 2017
- QRDA I & III File updates for 2017

ACI: Operational Dashboard Update

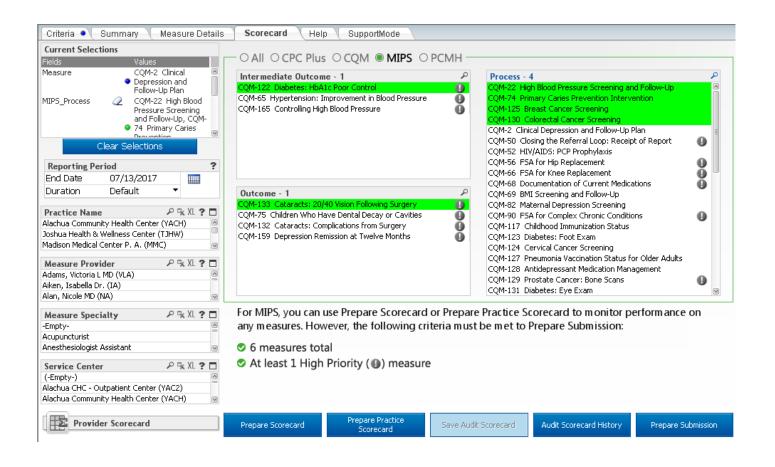

Quality: Clinical Dashboard Reconfiguration

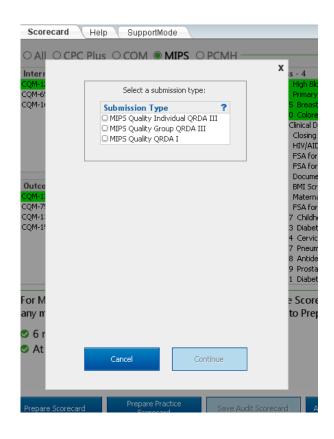

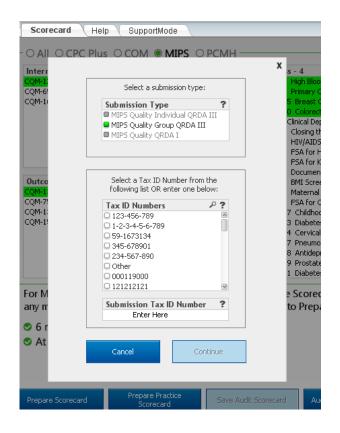

Quality: Clinical Dashboard Measures Selected

Quality: Submission Menu

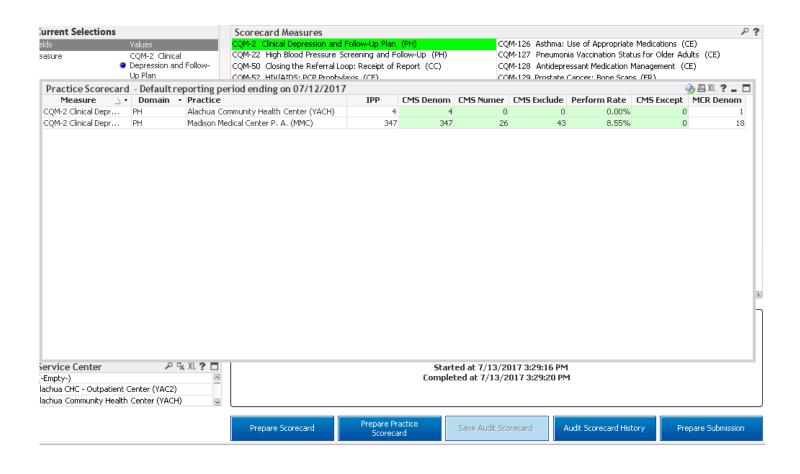

Comprehensive Primary Care (CPC)

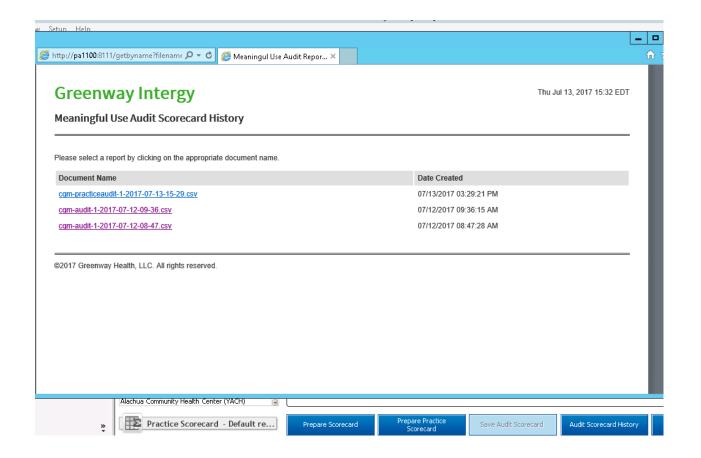

- Advanced primary care medical home model
- The goal is to improve quality of care and reduce the number of unnecessary services for patients
- Performance-based incentives
- Create & Store audit files (scorecard)

CPC: Clinical Dashboard Scorecard Enhancements

CPC: Audit Scorecard Retrieval

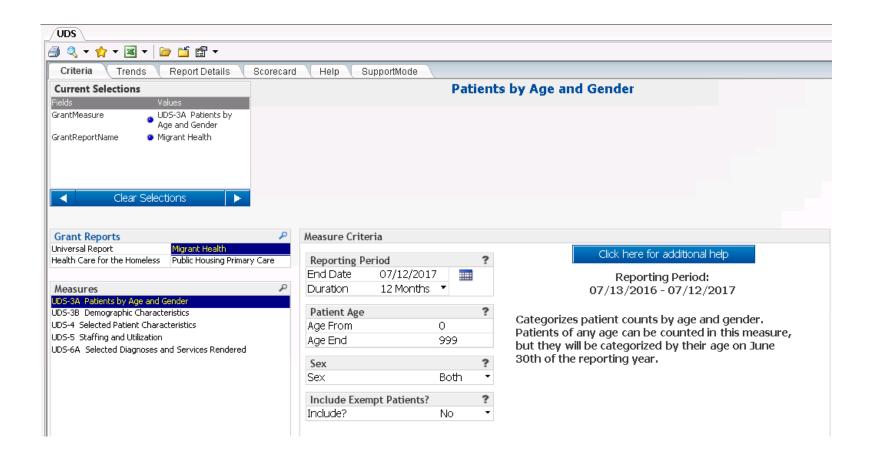

What is Uniform Data System (UDS)

- A core system of information to monitor the performance of health centers
- Community Health Centers (CHC) support underserved areas

 Data is used to compare the CHC patient population with the existing population at large

UDS: Grant Reporting

PA v11.00 Documentation & Resources

- Many resources available on Community
 - Regulatory Measures Cheat Sheet
 - Recommended & Minimum Versions
 - Release Notes

Online Help Documentation

New Education Courses: MIPS and UDS

Software Updates

- Software update 11.0 available early September (11.00.00.02)
 - Intergy Practice Analytics Hotfix will contain final ONC
 2015 edition certified features
 - Updated Quality Reporting Architecture (QRDA) files for electronic submission of clinical quality measures (CQMs)
 - Import QRDA module providing the ability to import QRDA
 1 files to calculate CQMs
